

AMENDMENTS TO THE CLAIMS

1. (Currently Amended) A compound comprising the hexapeptide motif HFDDDE (SEQ ID NO: 2).
2. (Original) The compound according to claim 1 for use as a pharmaceutical.
3. (Original) The compound according to claim 1 for use in inhibiting neutrophil migration.
4. (Original) The compound according to claim 1 for use in prevention and treatment of inflammatory conditions.
5. (Original) A pharmaceutical composition comprising the compound according to claim 1, and a pharmaceutically acceptable carrier.
6. (Original) Use of the compound according to claim 1 for the manufacture of a pharmaceutical composition for prophylaxis and treatment of conditions dependent on neutrophil migration.
7. (Original) Use of the compound according to claim 1 for the manufacture of a pharmaceutical composition for prophylaxis and treatment of inflammatory conditions.
8. (Currently Amended) A method for therapeutic or prophylactic treatment of conditions dependent on neutrophil migration, comprising administering to a mammal in need of such treatment a compound comprising the hexapeptide motif HFDDDE (SEQ ID NO: 2) in an amount which is effective in inhibiting neutrophil migration.

9. (Currently Amended) A method for therapeutic or prophylactic treatment of inflammatory conditions, comprising administering to a mammal in need of such treatment a compound comprising the hexapeptide motif HFDDDE (SEQ ID NO: 2) in an amount which is effective in inhibiting neutrophil migration.
